

Superior Quality

Attractive Designs

Reasonable Pricing

Devon Office Furniture is pleased to announce the following new enhancements to our Axsys 2 Panel System Program. This information is detailed below and is also available on the [News & Updates](#) section of our website.

The enhancements have been integrated into our updated Net Pricer. [Click here](#) to download the updated Net Pricer.

Powered and Non-Powered Panels

This new enhancement will make specifying our product easier and quicker. You no longer need to specify the “double blocks” as separate line items. The updated Net Pricer now includes Powered and Non-Powered Panels.

Specifying Powered and Non-Powered Panels

[Click here](#) to download specification diagram

On the updated pricer, you will see sections for Non-Powered and Powered 4 Circuit panels. Enter the required quantity on the appropriate line item.

The Powered 4 Circuit Panels include the power harness/double block. You will need to specify Pass Thrus, Receptacles, and Feeds as separate line items in the “Electric 4 Circuit” section of the Net Pricer.

Specifying Fabric Grades on the Net Pricer

The new Net Pricer includes a drop down menu in the header section to select the fabric grade:

Keystone (Grade 1), Summit (Grade2) , or Aspen (Grade3)

The Net Pricer will automatically re-price the panels based on your selection.

The upgrade cost is no longer provided at the bottom of the Net Pricer.
